The Advertiser apologizes for one of didn't know it was loaded. This is the usual excuse of children and idiots.

gets ready or words to the same effect. usked for.

hainalana school under a Board of Street school. I do not think it would Trustees is an admirable measure. The be economy to patch up the old buildin all our public institutions, and it It has already done good work, and in is to be hoped the present Legislature order to progress and furnish us with will see that it is carried out.

Act to Mitigate is along the same lic officer who has had to deal with the local situation. If the theorizers can make their ideas practical they would have the everlasting gratitude of officials who have to deal with the fact, and usually get a kick as reward for their honest effort.

So far as can be learne, Rev. Dr. Bishop has never made any application for wireless telegraph stock his operations in that line having been confined exclusively to Kihel, that highly productive institution promoted by the Advertiser's owner. Finding Kihel a fim flam game it is possibly not surprising that the "Rev. Dr." is pessimistie on all industrial or scientific toples and hence takes no trouble to learn the and hence takes no trouble to learn his facts for publication by personal invesgation.

Finding nothing in the Governor's message on the subject of labor the Official Organ refers the Legislature to the Governor's inaugura; address, which is said to contain something on the subject. This is highly ridiculous. But it calls to mind that the Governor once said something about municipal government before the Social Science Club. The only thing that remains for the Legislature to do is order the publication of all documents ever prepared by the Governor and have them tacked on the message as an appendix. It would then have a series of contradictions that would do even our Gover-

RIPPING UP STREETS.

The construction of the newly installed sewer system, the relaying of tracks by the Hawaiian Tramways Company, and the placing in position of rails for the Honolulu Rapid Transit and Land Company have all aided to increase the work of the (Road) Bureau in extra street and road service by the necessary completion of work left unfinished by the employes on the above mentioned constructions.

This excerpt from the annual report of the Superintendent of Public Works gives in short space the cource of the most serious criticism made against the administration of the Public Works department. The inference has been and the statement by the superintendent does not refute the justice of it, that these employes on the above mentioned constructions have increased the work of the department on account of lack of strict supervision.

The damage to the streets done In laying the lateral sewers is still in evidence in the shape of lateral guilles Arrived! laying the lateral sewers is still in evi from one end of Beretania and King streets to the other. Under the terms of the contract this work must be done to the satisfaction of the Public Works department. So far as the people know the department considers the sewer ditches have been properly filled. That branch of the government has the au thority to force contractors to replace the street in as good condition as they found it. This has not been done Streets hither and you have been cut, slashed, and not replaced. The Public Works department alone is respon

The excuse that these streets are soon to be generally repaired amounts to nothing. These two main avenues particularly and many less important streets have been decorated by these gullies for months, long enough for the permanent replacement, had such ever been made, to have worn out, and be ready with the rest of the street for permanent work.

The Public Works department could have made a record for itself in dealing with this tearing up of streets by private concerns. The record as it The Evening Bulletin, 75 cents per stands today is by no means creditable. month.

SCHOOL HOUSE NECESSITIES QUESTIONS AND

Inspector General Gibson in his annual report says

It is to be hoped that the Legisla-

The opinion of Dr. Raymond on the large training school would relieve the crowded condition of other schools, and lines as the conclusion of every pub- by using the graduates as cadet teachers, we would insure good and economleal instruction to the pupils.

The Walkiki school is badly situated That school should be combined with the Moililli school, and a six-room building placed at a point convenient for both Waikiki and Molliill districts. The school population is increasing in this vicinty, so that the Molliili school has overflowed into the Kaahumanu school to the overcrowding of the lat-

SANITARY INSPECTORS

I would recommend that the number of sanitary inspectors be increased from six to ten, so that more territory can be covered. The present inspectors are covering all the ground they can, and yet not much more than half the area of Honolulu is covered.

There are portions of the districts in Molliffi, Walkiki and Kulihi which should be inspected as often as the ter ritory inspected now.

I sould also recommend an appropriation for sanitary inspectors in the giarriet of Walluku, and dana, on the island of Maul; also in inspector for each side of the island of Hawall, and two for the island of Asual.

Another matter which I plan to do the giving of a series of about twelve

setutes to the sanitary inspectors, These will be upon hygiene sanitation, disinfecting, tuberculosis, cubie att space, sanitary plumbing, etc., so that the efficiency of this branch of the Board of Health will be increased -President Raymond's Report,

By general request Mdlie, Antonia assisted by Mr. R will give one more song recital Monday evening, March 11th at \$130 o'clock, in Progress Hall. There will be an entire change of program. Tickets will be on sale at Wall, Nichols Co. and the Bergstrom Music Co. Monday morning. Owing to a dress rehearsal Morday evening at the Hawaiian Opera House it is necessary to give the concert in Progress hall.

Kapiolani

Tract

FOR SALE

The Kapiolani Tract extends from King street to the Beach. A road 60 feet wide will be opened on the east side of the property adjoining the Kamehameha Girls' School: said road will extend to the sea.

Cross-roads will be opened between blocks. Every lot will have a frontage on a road. The elevation varies from forty feet high to ten feet high above sea level.

No swamps around the premises. No freshet will enter the property.

There is an offer to buy a part of the property by a great manufacturing company. The chances are the offer may be accepted. There is every reason to believe that the prices of lots will increase in a short time. The owner of the property will give all chances to purchasers to make money on their

investments. The ground is superior to any tract in the market.

The premises are situated within one mile and a half of the Postoffice.

The Government water

pipes are laid along the upper portion of the property. The prices are the cheapest of any tract within two miles from the center of the

city. The terms which will be given to purchasers will be the best ever given by any real estate dealer or broker during the last twenty years

in Honolulu. For terms or more particulars, apply to

S. M. Kanakanui
